

Genuine Spicer® R155/156 Produced Before February 2016 - Spacer Discontinuation - Part Number Information

Date: **August 6, 2019**

To: **All Dana Aftermarket Group Spicer® Heavy Axle Customers**

Affected Models: **R155/R156 Models produced before February 15, 2016**

The R155 and R156 drive axle model produced before February 15, 2016 went through a pinion bearing design change to improve efficiency. This change in design impacted the stack up of the pinion bearings and spacer. The spacer thickness was increased which made the two generations of spacers incompatible. The pinion bearing spacers related to this "early model" will no longer be available in service.

When servicing "early model" carriers you must make sure the pinion bearings and spacers are from the same generations, new with new, old with old.

The spacers discontinued are in table 1 below. The new spacers and new pinion bearing cones are in table 2.
