RE: Eaton Clutch Core Buyback Program

Eaton is pleased to continue our buyback program on Eaton clutch cores. We are currently accepting the variants of cores listed below (see visual reference on page 2). Eaton will pay the amount shown in the chart based on the following criteria. Clutches not meeting all the criteria below will be rejected, scrapped and not paid or returned.

1. **Only Genuine Eaton cores** are eligible for the buyback program.
2. Clutch cores must be **fully assembled** – unless agreed to in writing by Eaton before the return.
3. No cracks, welds, or bulges in the clutch casting – external visual inspection only.

Eaton Clutch Model	Value
Cast 15.5" Easy Pedal Cores (108 or 208 series part numbers)	\$45 USD
Cast 15.5" Solo Cores (109 or 209 series part numbers)	\$45 USD
Stamped EasyPedal Cores (107 series part numbers)	\$30 USD
Stamped Solo Cores (109 series part numbers)	\$25 USD

Payments will be made by credit card following receipt, inspection, and validation of quantities at Eaton’s core center. A copy of the payment receipt will be required once the transaction is complete.

Please complete and return the Eaton Clutch Core Buy Back Request Form and send to clutchcorereturns@eaton.com to initiate the process. Freight must be coordinated through Transplace TMS (EatonLCC@transplace.com) for Eaton to pay the freight cost.

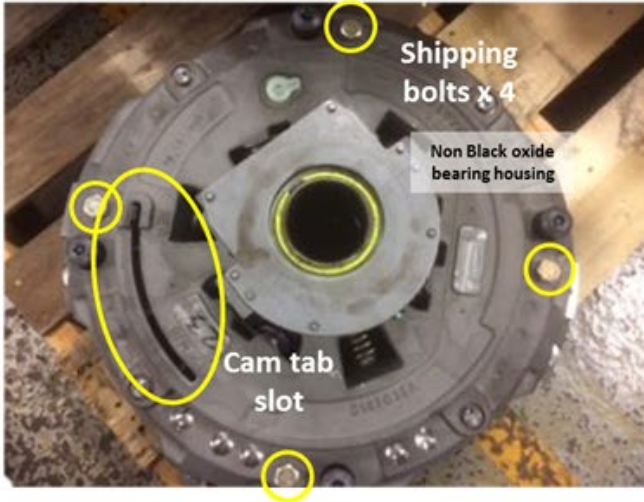

Do not ship cores until you have the authorization form approved by Eaton via email.
